May 2018 - December 2018 (8 months)
Toronto, Ontario, Canada

• Developed custom projects across Laravel, WordPress, and Opencart for diverse industries.

• Translated Figma and Sketch designs into SEO-friendly, accessible front-end code.

• Delivered exceptional user experiences while ensuring compliance with accessibility standards.

• Developed skills in HTML5, SASS, JavaScript, Vue.js, and Bootstrap, enhancing project outcomes.

ELECTROLIGHT ENTERPRISES
Web Developer
August 2017 - May 2018 (10 months)
Toronto, Canada Area

• Led the development and maintenance of custom corporate websites using WordPress and Opencart.

• Integrated third-party APIs to streamline operations and enhance user experience.

• Developed content management systems and security tutorials, empowering teams with web resource utilization.

• Improved SEO and web accessibility, resulting in increased site traffic and user engagement.

iMoan
Front End Developer
February 2015 - 2017 (2 years)
Moscow

• Collaborated with cross-functional teams to ensure project success in a fast-paced environment.

• Developed and launched e-commerce websites using WordPress/Opencart and Django, leveraging HTML5, LESS, jQuery, PHP, and Python.

• Enhanced online presence through impactful landing pages and corporate resources.

• Achieved significant SEO improvements, elevating user experience and engagement.

WEB-SOLUTION LTD.
Lead Front-end Developer, UI Designer
2013 - 2015 (2 years)
Moscow

• Spearheaded the design and development of various websites, enhancing user experience across platforms.
• Implemented front-end interfaces using HTML/CSS, jQuery, Bootstrap, and PHP for seamless functionality.
• Conducted market research and integrated SEO best practices, boosting online visibility and search rankings.
• Fostered strong client relationships, resulting in the successful delivery of modern web applications.

GIFTERY CO.
Front End Developer
2012 - 2013 (1 year)
Moscow

• Collaborated on corporate websites utilizing Django (Python) backend, enhancing user experience through HTML/CSS, jQuery, and JavaScript.
• Fostered strong partnerships with designers and developers to implement modern best practices in web development.
• Ensured cross-browser compatibility and user-friendly interfaces, significantly improving site engagement metrics.

Predestination
Front End Developer
2011 - 2012 (1 year)
Moscow

• Developed multiple corporate websites using WordPress, enhancing functionality and visual appeal.
• Designed and implemented high-converting landing pages, significantly boosting user engagement.
• Utilized HTML/CSS, jQuery, JavaScript, and PHP to deliver seamless user experiences.
• Contributed to Predestination's growth by elevating its online presence in the competitive Moscow market.

Education

Moscow State Open University (MSOU)
Masters's degree, Computer Science · (2003 - 2008)
