Richmond Hill, Ontario

Dedicated Full Stack Developer with a strong emphasis on Front End Development and AI. Experienced in a variety of technologies and frameworks to deliver robust, user-friendly solutions.

Work Experience

Senior Full Stack Engineer   Feb 2024 - Present
Jobscan | Seattle, Washington, United States

Senior Front End Developer   Jan 2019 - Jan 2024
codepxl | Toronto, Canada Area

Proficiently employed Vue.js, Nuxt.js, Laravel, WordPress, jQuery, and Vanilla JavaScript for Front End and Full Stack development.
Skillfully translated Figma designs into responsive web interfaces, utilizing HTML5, CSS3 (SASS), and TailwindCSS/Bootstrap.
Demonstrated expertise in building Single Page and Progressive Web Applications while actively contributing to project planning, code structuring, and maintaining legacy code.
Successfully managed a wide range of projects, from small-scale WordPress websites to extensive social networks and multi-application ecosystems.

Front End Developer   May 2018 - Dec 2018
EvolutionInDesignZ | Toronto, Ontario, Canada

Spearheaded various custom projects spanning across Laravel, WordPress, and Opencart, encompassing diverse industries such as real estate, education, non-profit, large data, and thin-client solutions.
Translated Figma and Sketch designs into cross-platform accessible, SEO-friendly front-end code using a skill set that included HTML5, SASS, JavaScript, Vue.js, Laravel Blade, jQuery, and Bootstrap.
Delivered exceptional results by seamlessly implementing these projects, ensuring they met accessibility standards and SEO requirements while providing top-notch user experiences.

Web Developer   Aug 2017 - May 2018
ELECTROLIGHT ENTERPRISES | Toronto, Canada Area

Led the development and ongoing maintenance of custom corporate websites built on WordPress and Opencart, employing a tech stack featuring HTML5, CSS3, JavaScript, and jQuery.
Streamlined operations by seamlessly integrating third-party APIs, transforming mockups into user-friendly interfaces, and enhancing SEO and web accessibility.
Innovatively contributed to end-user training by developing and implementing content management systems and security resource tutorials, empowering teams to utilize web resources efficiently and securely.

Front End Developer   Feb 2015 - Jan 2017
iMoan | Moscow

Collaborated seamlessly with cross-functional teams including client services, sales, and design, ensuring project success in a fast-paced, deadline-driven environment.
Successfully crafted and launched e-commerce websites on Opencart and Django framework, utilizing a technology stack that encompassed HTML5, LESS, jQuery, PHP, and Python.
Designed and constructed impactful landing pages and corporate resources to enhance the online presence of the company.
Achieved significant SEO improvements, resulting in remarkable outcomes, and enhanced overall UI/UX to elevate user experiences.

Lead Front-end Developer, UI Designer Jan 2013 - Jan 2015
WEB-SOLUTION LTD. | Moscow

Spearheaded the design and development of a diverse portfolio of websites, ranging from small-scale WordPress/Joomla-based corporate sites to expansive e-commerce solutions.
Proficiently implemented front-end interfaces using HTML/CSS, jQuery, Bootstrap, and PHP to ensure seamless user experiences.
Conducted market research and successfully integrated SEO best practices, resulting in improved online visibility and search engine rankings.
Fostered strong client relationships by collaborating closely with end clients, facilitating the creation of modern and highly productive web applications.

Front End Developer Jan 2012 - Jan 2013
GIFTERY CO. | Moscow

Collaborated on corporate websites with Django(Python) backend, applying HTML/CSS, jQuery, and JavaScript to create cross-browser compatible and user-friendly user interfaces.
Established a strong partnership with designers and the development team, actively contributing to the incorporation of modern best practices in website development, ensuring cutting-edge results.

Front End Developer Jan 2011 - Jan 2012
Predestination | Moscow

Contributed to the development of multiple corporate websites using WordPress, skillfully utilizing HTML/CSS, jQuery, JavaScript, and PHP to ensure optimal functionality and aesthetics.
Took charge of the design and development of impactful landing pages and product websites, enhancing the company's online presence and user engagement.
